

# Where does Ontario's electricity come from?

The following is a breakdown of Ontario's system-wide supply mix for 2020.

**Nuclear**  
**56.8%**

**Hydro**  
**24.4%**

**Natural Gas**  
**6.3%\***

**Solar**  
**2.4%**

**BioEnergy**  
**0.5%\*\***

**Wind**  
**8.7%**

**Other**  
**0.9%\*\*\***

\*Includes Lennox and dual fuel (natural gas/bioenergy) consistent with IESO. \*\*IESO's embedded generation data set combines biomass and gas.

\*\*\* Non-Contracted represents a variety of fuel types that the IESO is unable to categorize due to a lack of information from Local Distribution Companies (LDCs).

# A Fresh Look to Serve You Better

Designed with feedback from customers in mind, the new bill is simple and easier to understand; allowing you to find the important information you need most.

## What's New on Your InnPower Bill?

**The Essentials** - View your balance owing, account details, the due date and more at the top of your statement. Your most important information all in one place.

**Current Charges** - a NEW section that allows you to quickly see a summary of the different service charges on your current bill.

**Usage Graphs** - An easier way to analyze and compare your electricity and/or water usage.

**QR Codes** - A convenient way to access InnPower's Online Customer Portal, social media, and InnService's social media!

**Coloured e-Bills** - Customers enrolled in e-billing will now be able to see their bills in colour!

For more information  
on the new bill  
design, please visit  
[www.innpower.ca](http://www.innpower.ca)

As an added benefit, the new bill  
reduces operating costs while  
improving the customer experience.
